Teacher Reports: N/A

Administration Report:

Blake Clark gave the report. The enrollment numbers will change as it gets closer to school starting and even once school begins. Parents will forget to call and tell us they aren't coming so these numbers change. As of right now, there are 1,052 students enrolled with 154 on the wait list. If we had the space we could add two more kindergarten classes, one more second grade and well as one more third. In the past two weeks Blake has given 10-15 tours to new families to GWA and they are just grateful to be part of the school. All reports have been completed. Once the new calendar is sent out it will be sent to Shelbi and everything will be updated. Shannon asked that Blake cc her when the report gets sent out. They are talking about celebrations they are planning for when the students as well as the teachers come back. The all employee meeting will be August 1 and Shannon would like to have a board member present for that.

Financial Report:

Spencer Adams gave the financial report. The report is as of the end of June. He put in a disclaimer that the numbers that we are seeing are likely to change a little bit. They shouldn't be changing drastically but there's always some moving parts at the end of the year, some transactions that trickle in right at the end or some transactions that get moved around during the audit process. It shouldn't be a whole lot. He said everything is looking great. Similar to the past several years we did better than the forecasted amount that was approved for the final budget. Very positive year, nothing too concerning. Some lines were over the forecast by a little but overall . Looking at the net income column we had about 738,000, currently, based on the transactions we have the year-to-date actuals column, you can see we have exceeded that by about 230,000, so again a very good year. That's reflected in our ratios as well. The ratios are based on the forecasted column, so they will be higher as far as the operating margin goes. Spencer said that there were some line items that were slightly over that forecast column. But when we look at the major categories as a whole, we came in underneath each of those. We like to have a little padding in each of those just to cover any unexpected transactions. Casey wanted to know why the deferred revenue was showing a negative, he would expect it to be at zero since it was sent back. Spencer said that he noticed that and if you look a couple accounts up its going to be roughly the same amount, just the opposite, it was hitting the wrong account.

Hughes Construction Update: Shannon Greer said they are making good progress in figuring out the footprint. The team had to manage the expectations, the original date was 2027. Shannon is in the process of appealing to the State Charter Board to push the open date back to August of 2028. They have put a hold on a grant we were going to receive. We had two years to use it but with the date being pushed back, we will need to apply for it next year. There will not be a new auditorium, but they are on track with expectations for what the new addition will have.
