It gives more unity to the school and grade levels. The program will only be rolled out for 6th grade for 26/27. Feedback from students and

parents will be utilized at the end of the year to determine the success and future of the House Program. It was noted that these duties will be incorporated into the Board Clerk role to support consistency and training. It was decided that all parties (finance, admin, PTO President and liaison) need to come together to make a decision on the framework and accountability for this role. This meeting and restructure cannot happen until the new PTO leadership turns over July 1st and the new PTO Policy is approved, which should be in June. In the meantime, the Board Clerk duties will remain the same until these decisions can be made, because the finance portion of the job description has yet to be defined. This change is to help with consistency and structure in PTO finances which is crucial for our 5013C status. Strategic Planning: Laura Snelson updated that there has been progress made on the Strategic Plan narrative. She noted that changes will need to be made if the House Program is implemented as it will affect the Strategic Planning. Mr. Clark confirmed that it will be multiple years before a final decision is made on the implementation of the program. She prepared a presentation as an example of what the Strategic Plan will look like moving forward. She explained that the Strategic Plan has been put into 3 core elements. Each core element will have pillars of support. She mentioned that as a committee, they decided the only strategic priorities they would be working on are those that are specifically funded by the state. Sharna asked for simplification in the pillars because she feels overwhelmed by the information. Laura mentioned she is open to getting together to simplify the information. She also stated that the Strategic Plan can be changeable over time to meet needs. It was discussed that the Strategic Plan has been developed, but what is next? She would like a discussion on what the next steps would be to implement and measure it? Laura made a proposal that she step down from role as Board Member so she can focus more on Strategic Planning and put more time into it. She would invite the board to consider this proposal, she doesn't need an answer now. Casey asked for her to provide a quote for her to make this change. Mr. Clark wants to utilize Jaycee Rogers strengths to help support this as well.
