Teacher Reports: Jocelyn reports from Kindergarten: Our class has progressed significantly the last month! 25/26 students passed off their sight word lists, nobody is below grade level on reading scores, and we are making a lot of progress in math equations! From 1st: The first grade team made great growth for the end of year Acadience reading and math benchmarks. The kids have all been working so hard to sharpen their saws and truly showed what they knew. We are so proud of them for all they have accomplished this year! From 3rd: My class did fabulous on RISE this year! My students had a proficiency level of 73% in ELA, and 73% in math. We had Disney Day in my class on Tuesday of this week, and it was a big hit! Students participated in a variety of academic activities that were centered around a Disney theme, and that earned them fast passes onto virtual rides of beloved Disney attractions. We're looking forward to Leadership Day tomorrow! We are showcasing our learning of a CKLA/Social Studies/Science Unit that we learned about and doing projects based on that unit of study. From 4th grade: We have had a lot of success with working on some bigger projects. The students have been working on a big graphing project for math and have been learning about different charts and graphs. They have also been learning how to use the digital tool 'Canva' to complete this project. From 5th grade: I want to celebrate 5th grade for their amazing performance in the Give Me Liberty Patriot program. They worked so hard practicing songs and memorizing items for the awards. We also had 17 students who completed every requirement and received the Gold Award. Way to go 5th graders! From 6th grade: The sixth grade students went on a field trip to the Rosenbruch Wildlife Museum last week. Students have been performing Shakespeare, creating Nature Journals, and studying the Latin American Independence Movements. Board thanked Jocelyn for her years of service to GWA.

Administration Report: Blake started with giving a brief description of the acronyms that are used in the Administration report. Blake then went over the school year's testing results from the Acadience Reading and Math as well as what interventions are currently planned for next school year to address current academic needs. Blake then went over the school year's testing results from the RISE/SAGE Assessment - Math, ELA, and Science and again the interventions that are currently planned for next school year. Blake reported that Mathnasium finished up their program for the school year, so he has requested the data from their program and will forward that to the Board once he receives it. Blake reports that they will open up the spots in the Mathnasium summer program to the whole school. When asked why that was necessary, Blake and Kevin indicated that it was due to the delay in advertising the program. Blake went over the ELL program and data. Shannon asked if there was a summer program for this population. Christine stated that Flashlight 360 is a program that they can access online during the summer. Overall administration is happy where the results ended up and are already looking at ways to improve for next year. Blake reported that the family appreciation night turned out so well and expressed appreciation for Josh Serrano and Amanda's efforts. Kevin asked how many students participated in the reading charts. Blake reports that about 400 students completed the charts and the teachers expressed that they want to continue the program. Kevin asked if GWA could do one for Math. Blake stated that they are working with teachers over the summer and they can look into it for next year. Amanda asked if the students will have access to learning apps to prevent slip and Christine specified the different options available.

Financial Report: Kevin gave the Financial report in place of Spencer. Kevin reported that we are at 92% of our local revenue forecast and 83% of our state revenue forecast. Currently the federal revenue is lagging behind but Red Apple has applied for the funds so we're just waiting on that. The total Net Income from Operations is at 128% with the operating margin being 3.9%. Kevin explained that the drop in the Bank Account shown in the Board packet is due to the land purchase however the balances are starting to increase again. Reserves Forecast is currently at \$395,000 with year to date reserves being increased by \$551,000. Kevin reported that we had a great monthly revenue in March. Student count has stayed the same. The Building Payment hasn't changed a ton, Cash On Hand is still there, Operating Margin has dropped a little, and Unrestricted NI is at \$395,000. Casey asked if the student count was still likely to be 1060. Blake explained that the 1060 is always the expected but the numbers will change as we get closer to the start of school. The Budget is in line with where we need to be including revenues. Salaries, grants, expenses at 79%. If everything continues as forecasted then we'll hit \$6.2 million. No reports are due this month. Shannon reminded the Board that in June, the Board will be discussing the proposed budget for next month.
